REGIONAL CLEARINGHOUSE

Intergovernmental Review Process

RECOMMENDATION FOR FEDERAL APPROVAL OF:

PROJECT: Eastern Diversified Metals Site

IMPACT: Schuylkill County

APPLICANT: PA Dept. of Environmental Resources

Francisca Barba
PA CERCLA
3HW12
841 Chestnut Building
Philadelphia, PA 19107

SAI NUMBER: 87-00811

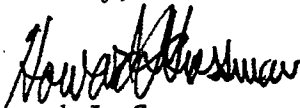

Dear Mr. Crystall:

The Economic Development Council as the Regional Clearinghouse for the Intergovernmental Review Process, certifies that in regard to the above mentioned project, the applicant has:

- complied with the procedures of the Intergovernmental Review Process as required by Executive Order 12372 as demonstrated by cooperation with the Regional Clearinghouse;
- satisfied the concerns of the various agencies expressing interest in this project;
- and has demonstrated to the satisfaction of the EDCNP Regional Clearinghouse that the project is in conformance with plans developed for the region. It is understood, however, that the applicant will comply with all local, county, and state ordinances that may apply, and that a recommendation for approval of the project does not negate the need for the applicant to comply with such ordinances.

The EDCNP Regional Clearinghouse accordingly grants clearance to file the completed application with the Federal Government along with our recommendation that it be approved.

Sincerely,

Howard J. Grossman
Executive Director
